CAPABILITY STATEMENT

# The Pest Guy Solutions LLC

Pest control, termite services and integrated pest management (IPM) for commercial and residential properties.

## CORE CAPABILITIES

- **Commercial IPM**
  Facility inspections, pest monitoring, targeted controls and service reports.
- **General pest control**
  Monthly, quarterly and one-time service for cockroaches, ants, spiders and other common pests.
- **Termite and wood-destroying organisms**
  Inspections, treatment planning and termite protection options with periodic inspections.
- **Rodent management**
  Activity assessment, monitoring, control and recommendations for sealing entry points.
- **Specialty pest programs**
  Bed bug inspections, preparation instructions, treatment and follow-up. Mosquito and other outdoor pest services.

## OUR 5P SERVICE PROCESS

### Prevent · Probe · Pinpoint · Protect · Prove

We identify pest activity and its source, recommend ways to reduce entry and harborage, and select controls for the site. Our service reports record findings, actions taken and follow-up steps.

**Service scopes** can define inspection zones, monitoring locations, reporting and follow-up schedules.
